

You are here > Invisible > [Solutions](#) > [\(OpenCert \)](#) > Invisible

(OpenCert)

OpenCert, a securing solution for flows and data exchange, allows you to give security access to your protected websites as well as its data

Fundamentals

- Public Key Infrastructure principle
- Give security to flows on x-Net (Inter, Intra, Extra) technologies
- Based on the use of a digital ID (X509 certificate) and/or biometry
- Enables digital certification and/or encryption of email exchanges
- Single sign on capabilities
